

REGATE, INC.

# **REGATE: ENHANCING INTERACTION AND EDUCATIONAL RESOURCES AT COLEGIO DE MONTALBAN**

**GROUP VI**

# PROBLEM STATEMENT

# PROBLEM STATEMENT

The current school portal is limited in functionality, offering only a dashboard for announcements, a basic student dashboard for enrollment, schedules, and grades, an e-library, and access to the student handbook. This setup lacks essential features for a fully interactive and resource-rich platform.

# PROBLEM STATEMENT

Students, facilitators, and administrators need a more dynamic and centralized web application to streamline communication, enhance access to school information, and improve overall usability. The existing school portal presents several challenges and inefficiencies that hinder its effectiveness.

# PROBLEM STATEMENT

These limitations create barriers to effective collaboration and hinder the educational experience, highlighting the need for a more robust and user-friendly web application.

# OBJECTIVES

# OBJECTIVES

- Develop dedicated portals for students, facilitators, and administrators to enhance user experience.
- Create an improved enrollment system for streamlined registration and management.

# OBJECTIVES

- Implement organization and program pages for easy access to information on school activities and courses.
- Design an interactive dashboard consolidating announcements, school details, and program offerings.

# OBJECTIVES

- Facilitate better communication and collaboration among all users through centralized resources and updates.
- Enhance overall usability and engagement with a user-friendly interface and accessible information.

# TARGET AUDIENCE

# TARGET AUDIENCE

- **Students:** Users seeking access to grades, enrollment information, program details, school announcements, course schedules, and the ability to request documents.

# TARGET AUDIENCE

- **Facilitators:** Users accessing their profiles, the programs they belong, the courses they teach, their schedules, school announcements, and relevant administrative information.

# TARGET AUDIENCE

- **Administrators:** Users who have access to tools to oversee the portal, manage organizational information, and facilitate communication across the portal.

# KEY FEATURES

# KEY FEATURES

## MAIN FEATURES

- User Portals:  
Students, Facilitators, and Administration
- Main Dashboard
- Enrollment System
- Management System
- Centralized Announcements
- Document Request System
- etc.

# KEY FEATURES

## BENEFITS AND IMPACT

- Enhanced User Experience
- Improved Communication
- Increased Efficiency
- Support for Learning
- Better Resource Management
- Data-Driven Insights
- etc.

# ABOUT US

## GROUP IV - DYNAMIC WEB APPLICATION
